KARELO-FINNISH WEATHER BULLETINS
8 APRIL - 3 JUNE 1950

Leninskoye Znanya, 8 Apr 50

During the past 24 hours, the weather became cooler throughout the republic. Yesterday, the weather was cloudy without actual precipitation, but with light winds. The temperature in the northern regions was zero to 4 degrees below zero, and 2-6 degrees above zero in the southern regions.

Today and tonight, weather throughout the republic and in Petrozavodsk is expected to be slightly cloudy and without precipitation. During the night and early morning, there will be fog in places, followed by light winds. Day temperature will be 1-5 degrees above zero; night temperature from 4-8 degrees below zero. (All temperature readings are in degrees centigrade.)

Leninskoye Znanya, 11 Apr 50

On 10 April, the weather in the northern regions of the republic was cloudy. During the night, snow fell in places; during the daytime, it rained. In the southern regions, the weather was slightly cloudy. Winds in the southern quarter were moderate to strong. The temperature in the northern regions was 4-6 degrees above zero; in the southern regions 6-12 degrees above zero.

On 11 April, weather in the northern regions of the republic is expected to be cloudy with local showers. In the southern regions it will be slightly cloudy with moderate winds. Day temperature will be 4-8 degrees above zero in the northern regions and 6-12 degrees above zero in the southern regions. Night temperature will be zero to 4 degrees above zero.

Leninskoye Znanya, 12 Apr 50

On 11 April, weather in the republic was slightly cloudy with moderate to strong winds in the southeast quarter. The temperature was 3-9 degrees above zero.

On 12 April, slightly cloudy, dry weather will continue throughout the republic and in Petrozavodsk. The wind in the southeast quarter will be moderate to strong. Cloudiness is expected to increase during the night. Day temperature will be 5-9 degrees above zero; night temperature from 2 degrees above zero to 3 degrees below zero.

Leninskoye Znamya, 15 Apr 50

On 14 April, weather in the republic was cloudy with precipitation and fog, and a light wind in the southern quarter. The temperature was 2-8 degrees above zero.

On 15 April, the weather in the southern regions is expected to be cloudy without actual precipitation; in the northern regions, cloudy with rain. A moderate wind, increasing to strong in the southern regions, is expected. Day temperature will be 4-10 degrees; night temperature zero to 4 degrees above zero.

Leninskoye Znamya, 16 Apr 50

On 15 April, weather in the northern regions of the republic was cloudy with precipitation; in the southern regions slightly cloudy.

On 16 April, the weather in the northern regions is expected to be cloudy; in the southern regions slightly cloudy and without actual precipitation. Moderate to strong winds will blow in the southwest quarter. Day temperature in the northern regions will be 4-8 degrees above zero, in the southern regions 6-12 degrees above zero; night temperature zero to 3 degrees above zero.

Leninskoye Znamya, 18 Apr 50

On 17 April, weather in the republic was clear with light winds. The temperature was 8-13 degrees above zero.

On 18 April, the weather is expected to remain warm throughout the republic. The east wind is light to moderate. Day temperature in the northern regions will be 5-10 degrees above zero, in the southern regions 10-15 degrees above zero; night temperature 2-6 degrees above zero.

Leninskoye Znamya, 19 Apr 50

On 18 April, weather in the republic was cloudy with no precipitation except in the Sortavala area.

On 19 April, weather is expected to be cloudy, with rain in places, primarily in the western regions. The wind in the southern quarter will be light to moderate. Day temperature in the northern region will be 8-12 degrees above zero; in the southern regions 12-16 degrees above zero. It is expected to grow cooler during the night, beginning in the southwest regions. The temperature will drop to zero.

Leninskoye Znamya, 21 Apr 50

On 20 April, weather in the republic was cloudy. Rain fell heavily in places and a moderate wind blew in the western quarter. The temperature was 4-10 degrees above zero.

On 21 April, the weather in the republic is expected to be cloudy with brief local showers during the daytime. A moderate wind will blow in the western quarter.
